Forest Management Certificate Reporting Form

(to be completed for every certificate and every site covered by a multi-site certificate.)

Note: Depending on the national situation, especially when a high number of small scale forest owners are participating in group Forest Management certification, the registration of forest owners participating in group certification can be registered by the NCCF itself, or even by a third party. In this case the data requested in this reporting needs to be collected by the NCCF or the third party from the forest owners directly, and not from the certification body.
